

Robert Shilcof

Address: 99 Walsall Road, Sutton Coldfield, B74 4NP, UK
Phone: + 44 (0)7807 094639
Email: robert.shilcof@gmail.com
Nationality: British
Born: 12/05/1996

Capable, inquisitive and motivated. Driven by solving complex problems and developing innovative ways of approaching tasks, I thrive on meeting all challenges in a logical and determined manner. With an excellent academic background in engineering and a growing computer programming mindset, my aim is to master the skill sets required to emerge as an industry leader within the software development field.

ACADEMIC ACHIEVEMENTS

MEng Mechanical Engineering: First Class Honours 2014-2018
University of Bristol

A Levels: Maths A*, Further Maths A*, Physics A, and AS level: Chemistry B 2012-2014
Bishop Vesey's Grammar School

KEY SKILLS

- Critically analysing and interpreting technical data.
- Adept at balancing creative holistic thinking and meticulous attention to detail.
- Competent working within a team or unsupervised.
- Proficient with Microsoft suite. Capable of programming in MATLAB and Visual Basic. Expanding website design, development and maintenance ability.
- Effective at communicating, presenting and negotiating.

PERSONAL ACCOMPLISHMENTS

- Bechtel Industrial Prize 2018 for individual merit.
- Climbed Kilimanjaro 2014.
- Captain of Clifton Crusaders RFC 2017-2018.
- Maths school award recipient 2008, 09, 10, and 11.

PROFESSIONAL EXPERIENCE

Lead Hand, Guest Services *Whistler Blackcomb, Whistler, Canada* 2019-2020
Led a team identifying and solving technical problems associated with electronic lift passes utilising effective communication skills. This experience honed my teaching, mentoring and organisation abilities.

Business Development and Digitalisation Manager (Temp) *Porsche, Dubai* Jun-Aug 2019
Three months into my internship a managerial role became vacant in the Network Development team. I set out a business case for moving into a role not usually held by an intern gaining the director's recognition. Negotiated between invested companies to ensure projects were implemented efficiently and on time. Expanded administration ability by constructing and critically evaluating business plans. Involved a trip to Porsche India to provide guidance and feedback.

Technical Competence Centre Intern, After Sales *Porsche, Dubai* Feb-May 2019
Furthered data analysis and coding knowledge through the creation of new reports. Led a marketing campaign promoting vehicle system upgrades in global markets, managing projects within budget. Researched the feasibility of implementing new pricing packages to bring mutually beneficial trade and retail margins.

Technical Assistant and Data Administrator *Cerda Planning, Sutton Coldfield* 2014-2018
During work placements devised and implemented archiving systems, plan drawing, site survey work and website design. Established strong working relationships with the team; returning to assist with troubleshooting and technical tasks.
